

DAU PWA - Markdown Standard v1.0

Purpose

This standard defines how all university webpages and documents must be converted into markdown format.

The objective is to ensure:

- Consistency across teams
 - Easy validation
 - Better semantic search
 - Better retrieval quality
 - Easier AI integration in future phases
-

General Rules

1. Do NOT rewrite university content.
 2. Preserve original meaning.
 3. Remove navigation bars and footers.
 4. Remove repeated UI elements.
 5. Preserve heading hierarchy.
 6. Preserve tables whenever possible.
 7. Preserve downloadable resources and links.
 8. Keep markdown clean and readable.
 9. One source page = One markdown file.
 10. Use UTF-8 encoding.
-

File Naming Convention

Use lowercase and underscores.

Examples:

faculty_abhishek_gupta.md

academic_calendar_2025_26.md

registration_notice_autumn_2025.md

event_machine_learning_workshop.md

Do NOT use:

page1.md

newfile.md

test.md

Directory Structure

data/

|— academics/

|— faculty/

|— announcements/

|— events/

|— achievements/

|— policies/

|— placements/

|— departments/

|— student_services/

Mandatory Metadata Header

Every markdown file MUST start with:

title: "<Page Title>" url: "<Original URL>" category: "<Category>" scraped_by: "<Team Member Name>"
scraped_date: "YYYY-MM-DD" team: "<Team Name>"

Example:

title: "Academic Calendar 2025-26" url: "https://daiict.ac.in/..." category: "Academic" scraped_by: "Vedant Shah" scraped_date: "2026-05-30" team: "Team 1"

Document Structure

Overview

Short summary of the page.

Main Content

Main content extracted from the webpage.

Preserve headings.

Example:

Eligibility

Content...

Important Dates

Content...

Registration Process

Content...

Important Information

Important facts, deadlines, contacts, rules, policies, etc.

Use bullet points whenever possible.

Example:

- Registration begins on ...
- Last date for submission ...
- Contact email ...

Related Links

List all important links found on the page.

Example:

- Course Structure PDF
- Registration Portal
- Department Website

Contact Information

If available.

Example:

Name: Academic Office

Email: academics@...

Phone: ...

Office: ...

Downloadable Resources

List downloadable files separately.

Example:

Resource	Type
Academic Calendar	PDF

Resource	Type
Registration Form	PDF
Fee Structure	PDF

Table Handling

Convert tables into markdown tables whenever possible.

Example:

Semester	Credits
Semester 1	20
Semester 2	22

Do NOT convert tables into plain paragraphs.

Image Handling

Do NOT store images.

Instead record:

[Image Present: Laboratory Building]

[Image Present: Placement Statistics Chart]

Only keep images if they contain important information unavailable elsewhere.

PDF Handling

For PDF-based content:

1. Create a markdown file.
2. Extract meaningful text.
3. Preserve headings.
4. Mention original PDF source.

Example:

source_type: PDF pdf_name: Academic Requirements BTech ICT

Quality Checklist

Before submission verify:

- Metadata exists
- Title is correct
- URL is correct
- Category is correct
- Headings preserved
- Tables preserved
- Important links preserved
- No navbar/footer content
- File name follows convention

Definition of Done

A page is considered complete only when:

- ✓ Content extracted
- ✓ Markdown created
- ✓ Metadata completed
- ✓ Validation performed
- ✓ Uploaded to GitHub
- ✓ Pull Request submitted

Version: 1.0
